[A Word from the Author]

Long time no see! Akamatsu Ken here.

I've been on vacation for over a year since "Love Hina" completed, but I've returned with this new series, "Mahou Sensei Negima".

It's great to see you all again!

The main character of "Negima" (Negi) is a cute and intelligent boy. I've never done a manga starring this type of character before. He's meant to be a genius, so it makes writing for him quite difficult (laugh).

Are you really going through with this?!

Long time no see!

On that note, there are 31 individual, troubled, and beautiful students in his class (some who aren't even human...). These girls just might be the real main characters of "Negima"!

In any case, please watch over Negi as he grows up!

(27) Miyazaki Nodoka (Honya)

She's shy, withdrawn, and lacks self-confidence. I guess she's the Shinobu-type character (laugh).

On that note, I wanted to develop the "Megane-ko" (girl with glasses) concept even further to "Maegami-ko" (girl with long hair at the front)!

She isn't a very stylish person, and she always seems worried.
